For demonstrating integrity, determination, and courage in providing independent oversight and unbiased review of the United State's reconstruction efforts in Iraq. The Special Inspector General for Iraq Reconstruction (SIGIR's) efforts greatly increased the public's confidence in Government by detecting fraud, waste, and abuse, while also providing recommendations on policies to promote economy, efficiency and effectiveness in the reconstruction of Iraq. SIGIR continues to perform its mission under difficult and dangerous circumstances, exemplifying the highest ideals of government service as envisioned by the tenets of the Inspector General Act and the values of their mission: integrity, honesty, and dedication.
