¹ SIGIR reports an appropriation of \$18.44 billion in IRRF 2 funds. Typically, this amount is reflected in the weekly status report provided by the Department of State.

² The appropriated amount is calculated by taking the sum of apportioned funds for ISFF FY05, FY06, and FY07 as reported in the DoD Secretary of the Army Update.

³ The appropriated amount references the total amount of \$1.485 billion for ESF FY06 Supplemental funding as reported in the weekly status report provided by ITAO.

⁴ Allocation detail for CERP FY06 and FY07 is currently unavailable; therefore, dollars allocated are calculated using obligation totals.

⁵ Commitment means an underlying contract for the use of grant and loan funds, as defined in Baron's Dictionary of Banking Terms.

⁶ Disbursements are actual payments from loan or grant proceeds effected against the committed amounts of the loans, grants, or funds, as defined in Baron's Dictionary of Banking Terms.
