# INTERNATIONAL DONOR ASSISTANCE TO THE GOI

Donor assistance to the GOI includes bilateral and multilateral development assistance in loans and grants. As of June 30, 2010, the Department of State (DoS) reported \$18.10 billion in total donor pledges, including \$5.26 billion in grants

and \$12.84 billion in loans.<sup>1</sup> Donor commitments totaled \$11.96 billion—\$6.15 billion in grants and \$5.81 billion in loans.<sup>2</sup> For an overview of bilateral and multilateral development assistance, see Figure D.1.

## Bilateral Development Assistance

As of June 30, 2010, \$8.28 billion in bilateral assistance had been committed to Iraq.<sup>3</sup> The largest international (non-U.S.) donors include Japan, which has committed \$4.49 billion through grants and loans, and the European Commission (EC), which has committed \$0.71 billion through grants.<sup>4</sup> During the quarter, Japan committed an additional \$109.4 million in humanitarian assistance, and Italy doubled its commitments to \$300 million.<sup>5</sup>

## Multilateral Development Assistance

As of June 30, 2010, \$3.67 billion in multilateral assistance has been committed to Iraq. Multilateral development assistance includes loan commitments and pledges from the World Bank, International Monetary Fund (IMF), and Islamic Development Bank (IDB), as well as the International Reconstruction Fund Facility for Iraq (IRFFI) grants funded by donor deposits.<sup>6</sup>

## International Reconstruction Fund Facility for Iraq

The IRFFI was launched in 2004 to help donor nations channel their resources and coordinate support for reconstruction and development in Iraq. The facility comprises the World Bank Iraq Trust Fund (WB ITF) and the United Nations Development Group Iraq Trust Fund (UNDG ITF). New IRFFI projects must start by the end of 2010; project completions and disbursements are to take place no later than December 31, 2013.<sup>7</sup> As of June 30, 2010, 25 IRFFI donors, including the United States, had committed \$1.86 billion for Iraq reconstruction.<sup>8</sup> The largest IRFFI contributors are the European Commission (\$774 million in IRFFI deposits), Japan (\$492 million), and the United Kingdom (\$127 million).<sup>9</sup>

## International Monetary Fund

On February 24, 2010, the IMF approved a two-year Stand-By Arrangement (SBA) for Iraq totaling \$3.64 billion. The approval made \$455 million immediately available to Iraq.<sup>10</sup> The SBA was made available due to lower than anticipated oil revenues. The funds are intended to help improve public financial management, increase transparency and accountability in the oil sector, and help reform the banking sector.<sup>11</sup>

## World Bank

The World Bank funds several programs to support the GOI in addressing reconstruction needs:

- restoring basic services
- supporting private-sector development
- enhancing social safety nets
- improving public-sector governance

This support for Iraq reconstruction is funded primarily through the World Bank Iraq Trust Fund. WB ITF commitments to the IRFFI total \$497 million.<sup>12</sup> The cutoff date for donor's contributions for the WB ITF was December 31, 2008, and donors have agreed to terminate the fund on December 31, 2013. By this deadline, all WB ITF funding must be disbursed, and all projects will be completed.<sup>13</sup> As of May 31, 2010, the WB ITF has financed 24 projects, four of which have been fully implemented and closed. The remaining 20 projects are currently under implementation.<sup>14</sup>

The World Bank has provided assistance to Iraq to develop social services through its International Development Association (IDA). Five IDA loans have been approved for Iraq, totaling \$508.5 million.<sup>15</sup> For the status of these projects, see Table D.1.

In May, the World Bank released the second \$250 million tranche of its Development Policy Loan for Iraq in support of the World Bank's reform program, which focuses on public financial management, financial sector reform, and poverty reduction through reforms of social safety-net mechanisms. In April, a team of World Bank specialists launched a capacity-building program

TABLE D.1  
**WORLD BANK IDA LOANS**

PROJECT NAME	PROJECT AMOUNT	APPROVAL DATE	IMPLEMENTING AGENCY	DESCRIPTION	STATUS
Third Emergency Education	100.0	11/2005	Ministry of Education	Assists the Ministry of Electricity through reducing school overcrowding and strengthening its capacity to improve the quality of teaching and curricula.	The Bank's Board approved project restructuring in June 2009. The project will now support educational infrastructure (school construction), institutional strengthening (teacher training and curricula development), and project management.
Emergency Road Reconstruction	135.0	6/2006	Ministry of Construction & Housing	Assists in the rehabilitation of highways and village access roads in central, northern, and southern Iraq. Three floating bridges will also be replaced with permanent structures.	Rehabilitation in the KRG is underway and disbursing. Progress in central and southern Iraq is expected to move forward due to a large contract expected to be tendered soon.
Dokan and Derbandikhan Hydropower	40.0	12/2006	KRG Ministry of Electricity	The plan aims to upgrade electricity supply in the Kurdistan region and the national grid. The project will directly impact an estimated 490,000 households and benefit industrial consumers.	A majority of contracts are finalized and the draft Environmental Preparedness Plan is complete and under review. A supervision and implementation consultant recommended that three rehabilitation projects be considered for additional financing.
Emergency Electricity	124.0	3/2007	Ministry of Electricity	Aims to restore the base-load generating capacity of the Hartha power plant and build capacity at the Ministry of Electricity.	A contract to rehabilitate the Hartha power plant was signed in April 2009. The main contract commits the entire IDA credit. An Environmental and Social Impact Assessment has been completed.
Emergency Water Supply	109.5	6/2008	Ministry of Municipalities and Public Works	Intends to improve the quantity and quality of water availability in four high-priority provinces. Assists the GOI on developing a sustainable policy for the water sector.	Roughly \$74 million has been committed while three more works packages and two consultancy services are yet to be tendered. These additional services would commit another \$32 million.

for Iraqi officials from the Ministries of Labor and Social Affairs, Education, and Municipalities and Public Works, as well as the National Board of Pensions and Baghdad city government. The program aims to enhance their knowledge and skills for more effective implementation of development projects.<sup>16</sup>

### United Nations

UNDG ITF commitments to the IRFFI total \$1.36 billion.<sup>17</sup> The UNDG ITF has approved 176 joint projects totaling \$1.29 billion, leaving \$112 million to be committed to new projects.<sup>18</sup> The cutoff date for donor contributions for the UNDG ITF was June 30, 2009; any funds that are not committed to a specific project by December 31, 2010, will be returned.<sup>19</sup> To meet this requirement, the UN agreed that no new projects would be approved after June 30, 2010.<sup>20</sup> Any remaining UN funds will be deposited in the UN's general Multilateral Donor Trust

Fund and will go to support activities overseen by the UN Assistance Mission for Iraq (UNAMI).<sup>21</sup>

## Sources for International Donor Information

SIGIR continues to note the challenges in reporting on international contributions to Iraq reconstruction. As Iraq shifts to normalized relations with the international community, the United States is less able to track international funding. Efforts by international donors now focus on helping Iraq sustain its progress. While some donors continue to support Iraq with technical assistance, economic development projects, and project financing, others are focusing on building relationships based on conventional trade and investment.<sup>22</sup> The Department of State's Bureau of Near Eastern Affairs-Iraq (NEA-I) does not expect substantial

# INTERNATIONAL DONOR ASSISTANCE TO THE GOI

additional increases in donor commitments for Iraq reconstruction.<sup>23</sup>

## Department of State

NEA-I provides SIGIR with quarterly updates on international pledge and commitment figures from donor countries and international organizations.

## Development Assistance Database

The Development Assistance Database (DAD) was established to serve as a reliable and credible source of information on donor contributions for the reconstruction, economic recovery, and socioeconomic development of Iraq.<sup>24</sup> However, there is no standard reporting requirement for donors to provide data and no set time frame for updates to the DAD to be completed. Thus, comparing DoS donor pledge figures to data available in the DAD does not provide an accurate or complete picture of the status of donor support.

## DETAILED SUMMARY OF OTHER AGENCY OVERSIGHT

This appendix provides summaries of the audits listed in Section 4. All information provided is current, as of June 30, 2010.

### Defense Contract Audit Agency

The services of the Defense Contract Audit Agency (DCAA) include professional advice to acquisition officials on accounting and financial matters to assist them in the negotiation, award, administration, and settlement of contracts.

In addition to DCAA's involvement in the negotiation and award of contracts, significant resources are also dedicated to overseeing the allowability,

allocability, and reasonableness of incurred and billed costs. Procedures that govern the costs incurred in-country are also tested through reviews of contractor timekeeping, subcontract management, and cash management/disbursement.

Finally, to ensure that adequate internal controls are in place regarding the contractor's policies and procedures, DCAA performs audits associated with critical internal control systems, with an emphasis on estimating, subcontract management, and billing systems.

DCAA plans and performs work on a fiscal year basis. Table G.1 shows both the Iraq-related audits closed during FY 2009 and the audits closed and still open in FY 2010 (as of June 30, 2010).

## Defense Criminal Investigative Service

DCIS continues to conduct criminal investigations in support of DoD GWOT efforts through investigative resources in Southwest Asia; Wiesbaden, Germany; and continental U.S. task force investigations focusing on public corruption and fraud in the Southwest Asia theater. In conjunction with DoD OIG's renewed emphasis on oversight of spending related to Iraqi development, DCIS has continued to deploy special agents to Iraq, Kuwait, and Afghanistan to conduct criminal investigations in support of DoD operations. Six-month rotational details to Iraq and Kuwait commenced in September 2006. Six-month rotations to Afghanistan commenced in 2008. As of June 2010, DCIS has deployed 5 special agents and one administrative staff member to Iraq, 1 special agent to Kuwait, and 7 special agents to Afghanistan.

### Open Cases

DCIS currently has 42 open investigations being worked jointly with SIGIR, including four projects. No cases were closed during this period. Table G.2 shows the DCIS open and closed investigations, as of June 30, 2010.

## Department of Defense Office of Inspector General

DoD continues to face many challenges in executing its Overseas Contingency Operations (OCO). The Department of Defense Office of Inspector General (DoD OIG) has identified priorities

based on those challenges and high-risks and has responded by expanding coverage of OCO operations and its presence in Southwest Asia. As the Department continues its OCO, such as Operations Iraqi Freedom and Enduring Freedom, DoD OIG plans to stay focused on issues important to accomplish the mission and ensure that the Department makes efficient use of its resources to support the warfighter.

The DoD OIG-led Southwest Asia Joint Planning Group coordinates and deconflicts federal and DoD OCO-related oversight activities. The Group held its thirteenth meeting in May 2010. During the May 2010 Southwest Asia Joint Planning Group, the Army Materiel Command briefed its Southwest Asia efforts, including supporting the shifting of forces in Southwest Asia. Through the Group, the members continue to coordinate, collaborate, and deconflict their respective and joint oversight efforts including working with the Commission on Wartime Contracting and its respective mission.

### Completed Audits/Reviews

#### *Central Issue Facility at Fort Benning and Related Army Policies*

*(D-2010-069, ISSUED JUNE 21, 2010)*

The Army generally provided DoD civilians and contractor employees deploying to Iraq and Afghanistan with proper clothing and equipment. The value of recoverable clothing and equipment that was not returned by civilians was unavailable. However, DoD OIG determined that, of 940 contractor employees who deployed during FYs 2006

and 2007 and returned, 749 (about 80 percent) did not return recoverable clothing and equipment, valued at about \$2.5 million, issued to them. Items were not recovered because the Army lacked adequate internal controls for recovering clothing and equipment issued to civilians and contractors. If adequate controls had been in place, the Army could have put at least \$2.5 million to better use. Additionally, inadequate controls could allow sensitive items such as body armor to end up in the wrong hands.

***Government Oversight of Field Service Representative and Instructor Services in Support of the Mine Resistant Ambush Protected Vehicle Program***

*(D-2010-068, ISSUED JUNE 17, 2010)*

Marine Corps Systems Command contracting officials did not provide adequate Government oversight of Field Service Representative and New Equipment Training Instructors as required by Government regulations. This occurred because contracting officials used the Mine Resistant Ambush Protected (MRAP) vehicle production contracts, which did not contain the necessary controls for providing Government oversight when acquiring these services. As a result, Joint Program Office MRAP officials ordered \$815.4 million in Field Service Representative and New Equipment Training Instructor services without a written quality assurance process to ensure that the services provided were performed in accordance with contract requirements. Instead, the Joint Program Office MRAP officials relied on the contractors to monitor themselves.

***Drawdown and Reset of Equipment in Iraq—Operation Clean Sweep***

*(D-2010-060, ISSUED JUNE 11, 2010)*

According to documents provided by the 13th Sustainment Command (Expeditionary) (ESC), the Mobile Redistribution Teams (MRT) processed and re-established accountability for about \$768 million of excess equipment from October

2009 to April 10, 2010. DoD OIG commends the 13th ESC and the MRTs for those results.

However, not all units supported the MRT mission, limiting the effectiveness of Operation Clean Sweep. During DoD OIG site visits to four Forward Operating Bases, DoD OIG identified units that denied the MRTs access to their excess equipment, did not comply with FRAGO requirements to sort their excess equipment before the MRT's arrival, and did not provide adequate logistical support to the MRTs. This occurred because FRAGO 1022 did not require mandatory participation in Operation Clean Sweep and the MRT's mission and goals were not communicated to all units and commanders.

During DoD OIG's audit, U.S. Forces-Iraq and 13th ESC issued two FRAGOs which addressed DoD OIG's communication concerns; however, neither required mandatory participation in Operation Clean Sweep. Mandatory participation is key to Operation Clean Sweep effectiveness. When units pack and ship excess equipment without MRT assistance, the risk of injury to personnel at the receiving activity is increased and the accountability and visibility of the equipment is delayed. DoD OIG identified containers at Camp Arifjan, Kuwait, that were not packed and shipped by the MRTs, which were poorly packed and contained items such as weapons and hazardous material. In addition, those items were not brought to record until reaching Camp Arifjan, delaying the accountability and visibility of equipment that might be needed elsewhere, including Afghanistan.

***Public-Private Partnerships at Air Force Maintenance Depots***

*(D-2010-067, ISSUED JUNE 10, 2010)*

The Air Force did not adequately document its public-private partnership decisions for enhancing overall product support and the type of partnership arrangement selected; and did not adequately monitor the partnerships once they were established. Specifically, 35 of the 40 partnerships and 49 of 61 implementation agreements reviewed were not supported by business case analyses. In addition, 51

of 61 implementation agreements reviewed had not established baselines and 40 of 61 had not established metrics. Also Air Force Materiel Command did not adequately monitor revenues and expenses on partnership work performed, and the private industry partner owes \$3.1 million to Warner Robins Air Logistics Center.

As a result, there is not sufficient assurance that the Air Force's use of partnerships is obtaining best value for its maintenance support decisions and recovering all its expenses. This situation stemmed from prior conflicting Air Force guidance, insufficient Air Force Materiel Command oversight, and partnership decisions made above the Air Logistics Center level for bringing depot maintenance workload back to the depots to satisfy public laws on core capability and 50/50 compliance.

### ***Oversight of the U.S. Air Forces Central War Reserve Materiel Contract***

*(D-2010-066, ISSUED MAY 28, 2010)*

Acquisition Management and Integration Center (AMIC) officials properly awarded the \$419 million WRM contract and improved management of the new WRM contract. However, AMIC and AFCENT needed a formal structure to address the following problems. Specifically, AMIC and AFCENT did not have a formal agreement that clearly defined the roles, responsibilities, and accountability of AMIC and AFCENT personnel regarding the WRM program because AMIC and AFCENT personnel could not agree on language describing program management and functional area roles, responsibilities, and accountability. In addition, AMIC and AFCENT did not develop written standard operating procedures for the WRM program's internal control processes. AFCENT officials lacked defined processes while ineffectively managing the former WRM contract and had no formal processes for the new contract. This occurred because AMIC officials did not foresee the need to formalize the processes to ensure continuity. These problems could later result in delayed WRM requirements ex-

ecution, ineffective quality assurance surveillance, and failure in other internal control processes.

During the base year of the WRM contract, the total estimated contract value increased by approximately \$24 million (6 percent) because of fluctuations in WRM requirements. Troop withdrawals in Iraq and troop surges in Afghanistan could cause the estimated contract value to exceed the scope of the original competition, requiring AMIC to re compete the contract.

### ***Controls Over Funds Appropriated for Assistance to Afghanistan and Iraq Processed Through the Foreign Military Sales Network***

*(D-2010-062, ISSUED MAY 24, 2010)*

DSCA ensured that funds appropriated for assistance to Afghanistan and Iraq placed under its oversight were used for their intended purpose and were properly reported in the DoD Cost of War Report. However, improvements are necessary to ensure effective management of these appropriated funds. Specifically, \$6 million was not returned to DoD or the Military Departments before the funds' cancellation date and were not properly accounted for. In addition, \$31.6 million were not returned to Multi-National Security Transition Command-Iraq (MNSTC-I) before the funds expired. Also, DSCA needs to fully review and determine the proper disposition of at least an additional \$25.7 million of expired unobligated funds held in the FMS Trust Fund.

These management exceptions occurred because DSCA did not have existing procedures on managing canceled funds and did not comply with existing procedures on monitoring and notifying funds holders of excess amounts on a timely basis. As a result, some appropriated funds were not available for other use.

### ***Army Vessels Maintenance Contracts in Southwest Asia***

*(D-2010-064, ISSUED MAY 21, 2010)*

The Mission and Installation Contracting Command-Fort Eustis (MICC-EU) adhered to the surveillance and acceptance requirements for contracts reviewed. However, MICC-EU contracts did not have adequate contract competition, price reasonableness determinations, and funding. Specifically, MICC-EU contracting officers: did not adhere to competition requirements for all 15 contracts because they relied on an incorrect legal opinion from Naval Regional Contracting Command Naples, Detachment Bahrain (NRCC); as a result, they may not have obtained the best price for approximately \$51.8 million in contracting actions; did not ensure price reasonableness determinations were performed because they did not follow the Federal Acquisition Regulation; as a result, they may not have obtained the lowest price for more than \$29.9 million in sole-source contracting actions; and incorrectly funded one contract because the contracting officer used \$2.9 million in FY 2006 funds instead of FY 2007 funds; as a result, they violated the bona fide needs rule and may have violated the Antideficiency Act.

### ***Counter Radio-Controlled Improvised Explosive Device Electronic Warfare (CREW) Program***

*(D-2010-061, ISSUED MAY 21, 2010)*

This report is classified.

### ***Contingency Contracting: A Framework for Reform***

*(D-2010-059, ISSUED MAY 14, 2010)*

DoD OIG reviewed 34 reports DoD OIG issued from October 1, 2007, through April 1, 2010, that involve high-risk areas of contract management and found 10 systemic issues related to contracting deficiencies with the top five issue areas being: Requirements, Contract Pricing, Oversight and Surveillance, Property Accountability, and Financial Management. Additionally, DoD OIG reviewed

19 fraud investigations and determined that the criminal offenses occurred during the award and contract administration phases.

The “Key Aspects of the Contracting Process” flowchart on page iii and the “Fraud Indicators and Poor Practices in Relation to the Contracting Process” flowchart on page iv are useful resources to DoD field commanders and contract managers. These flowcharts provide: a useful snapshot of key contract issues and fraud indicators related to contingency operations, and a visual tool for Commanders and contracting officers to assess the strengths and weaknesses in their contracting approaches and real-time awareness of areas that might be susceptible to fraud and contributors to waste and abuse.

### ***Review of the Joint Task Force Guantanamo Inclusion of Detainee Mental Health Information in Intelligence Information Reports***

*(10-INTEL-04, ISSUED MAY 4, 2010)*

This project was developed as a result of information obtained during the Investigation of Allegations of the Use of Mind Altering Drugs to Facilitate Interrogations (09-INTEL-13, issued September 23, 2009). Present regulatory guidance authorizes health-care providers to share detainee medical information with interrogators, but does not provide specific guidance on how to do so. As a result execution of these policies at Guantanamo has been inconsistent, resulting in confusion for both health-care providers and interrogation elements. The Vice Director, Joint Staff concurred with DoD OIG’s recommendation and proposed that corrective measures should be expanded by updating JCS policy and doctrine to effect training modifications for the more efficient conduct of incorporating essential medical information into interrogation operations.

## ***Medical/Surgical Prime Vendor Contract Supporting Coalition Forces in Iraq and Afghanistan***

*(D-2010-055, ISSUED APRIL 29, 2010)*

Terms and conditions for the Medical/Surgical Prime Vendor contract were adequately developed to meet users' needs. DoD OIG reviewed selected aspects of the contract based on concerns raised by the primary customers and stakeholders. DoD OIG found the terms and conditions did not need improvement. In addition, Defense Supply Center Philadelphia solicits input from primary customers and stakeholders within the DoD logistics support community to ensure key requirements are incorporated into the contract.

Controls over monitoring the performance of the prime vendor contractor for the Global North Region were generally adequate. However, procedures to monitor credits to ensure DoD obtains the benefit of credits need improvement. The prime vendor did not apply FY 2008 overcharge credits resulting from price verification analyses performed by Defense Supply Center Philadelphia. As a result, the primary ordering facility for medical/surgical supplies used in Iraq and Afghanistan did not obtain the benefit of an estimated \$65,000 of overcharge credits for FY 2008. In addition, other ordering organizations in the Global North Region and the other regions may not be obtaining due overcharge credits.

## ***Assessment of Intra-Theater Transportation Planning, Capabilities and Execution for the Drawdown from Iraq***

*(SPO-2010-002, ISSUED APRIL 20, 2010)*

DoD OIG determined that U.S. Central Command and its subordinate and supporting organizations' intra-theater logistical planning and selected capabilities appeared to be sufficient to effectively manage and support the movement of materiel being withdrawn from Iraq. Additionally, DoD OIG observed that the logisticians in these organizations were continuing to gain efficiencies in their planning processes, which DoD OIG anticipates

will progressively improve and enhance intra-theater transportation capabilities.

## ***Efforts to Prevent Sexual Assault/Harassment Involving DoD Contractors During Contingency Operations***

*(D-2010-052, ISSUED APRIL 16, 2010)*

Of the 10 DoD contractors reviewed, 8 did not have policies or training requirements for sexual assault prevention and response. This condition occurred because contractual requirements were not established to ensure that contractors were aware of DoD's definition of sexual assault or that contractors should report sexual assault complaints to Military law enforcement during contingency operations. In addition, sexual assault prevention and response policy was not applied to contractors and contractors were not required to complete such training as part of theater-specific individual requirements training.

The Army Deputy Chief of Staff, G-3/5/7, and Air Force contracting officers did not provide adequate oversight of contractor deployment training for sexual assault prevention and response. This condition occurred because the Kellogg, Brown, and Root Services, Inc. Continental United States Replacement Center (CRC) and Fluor Corporation CRC operations were inappropriately approved, despite the contractors' sexual assault awareness and reporting training not meeting the minimum training requirements. Further, contractor employees were processed through predeployment sites without ensuring that sexual assault prevention and response training was completed.

## ***Defense Contract Management Agency Acquisition Workforce for Southwest Asia***

*(D-2010-051, ISSUED APRIL 8, 2010)*

DCMA could not determine its resource requirements for contractor oversight and contract administration in SWA because DCMA is reactive rather than proactive in assuming its role to provide contractor oversight and contract administration; DCMA did not define its acquisition

workforce requirements to support contracting operations in SWA; AT&L does not require Defense agencies to document acquisition workforce requirements; and, DCMA must be delegated contractor oversight and contract administration responsibility for work in SWA.

DCMA Southwest Asia personnel did not have the proper training and certification for contingency contracting positions in SWA. Specifically, of the 221 DCMA personnel training records reviewed from a universe of 1,170 from FY 2004 through FY 2009: 103 DCMA personnel were not fully qualified for the position occupied, and 57 quality assurance representatives did not have or could not produce proof of Defense Acquisition Workforce Improvement Act certification. In addition, of the 75 position descriptions DCMA provided, 30 position descriptions were either incorrect or did not have a requirement for certification.

#### ***Standard Procurement System Synchronization Utility***

#### ***U.S. Army Corps of Engineers' Use of Award Fees on Contracts in Iraq and Afghanistan***

*(D-2010-049, ISSUED APRIL 1, 2010)*

The U.S. Army Corps of Engineers Transatlantic Programs Center (TAC) contracting and award fee officials did not properly manage and oversee the award fee process for the 15 CPAF task orders reviewed, valued at \$116.4 million. Specifically, officials did not: develop adequate award fee plans for incentivizing and evaluating contractor performance; adequately conduct oversight and evaluation responsibilities; or adequately document and support award fee ratings. This occurred because USACE did not have policies and procedures for administering award fees consistently and in accordance with Federal Acquisition Regulation (FAR) requirements. In addition, USACE did not adopt Army best practices documented in the Army Contracting Agency (ACA) Award Fee Contracts

Handbook. As a result, TAC contracting officers and award fee personnel awarded fees, totaling approximately \$20.6 million, without sufficient support, justification, or assurance that contractors were paid award fees commensurate with their level of performance.

#### ***Material Purchases Made Through Partnership Agreements at Corpus Christi Army Depot***

*(MEMORANDUM, ISSUED MARCH 25, 2010)*

DoD OIG identified issues that led us to question whether partnership agreements were effective in minimizing the cost of direct materials to Corpus Christi Army Depot. DoD OIG's review of the Boeing contract led us to ask Aviation and Missile Life Cycle Management Command personnel about the potential, unreasonable unit prices for material and about the process for returning deficient material. DoD OIG also questioned whether procedures for performing, documenting, and monitoring Original Equipment Manufacturer physical inventories were specific enough to ensure adequate inventory management. Finally, DoD OIG determined that Aviation and Missile Life Cycle Management Command needed a standardized, well-defined process for considering and adjusting material requirements on follow-on contracts for Government-Furnished Material and the same material available through other DoD sources of supply. The latter is to be the subject of two announced audits: Material Purchases Made Through the Partnership Agreement with Sikorsky Aircraft Corporation at Corpus Christi Army Depot (D2010-D000CH-0077.001, initiated November 18, 2009) and Material Purchases Made Through the Partnership Agreement with the Boeing Company at Corpus Christi Army Depot (D2010-D000CH-0077.000, initiated November 17, 2009).

and improvised explosive device defeat systems used in Iraq and Afghanistan were developed, awarded, and managed in accordance with Federal and Defense acquisition regulations. Specifically, DoD OIG plans to determine whether the Joint Improvised Explosive Device Defeat Organization and Army procurement efforts for the interrogation arm used on Husky and RG-31 vehicles in Iraq and Afghanistan were developed, contracted, and managed in accordance with Federal and Defense acquisition regulations.

### Completed Reports

#### ***Warfighter Support: Improvements to DoD's Urgent Needs Processes Would Enhance Oversight and Expedite Efforts to Meet Critical Warfighter Needs***

*(GAO-10-460, ISSUED APRIL 30, 2010)*

This report discusses the extent to which DoD has a means to assess the effectiveness of its urgent needs processes, and what challenges, if any, have affected the overall responsiveness of DoD's urgent needs processes. Principally, this report found that DoD is unable to manage the urgent needs process and cannot assess how well the process addresses critical deficiencies in the field. Also in this report, GAO made several recommendations to DoD to improve guidance, procedures, and oversight mechanisms for the urgent needs process.

#### ***Operation Iraqi Freedom: Actions Needed to Facilitate the Efficient Drawdown of U.S. Forces and Equipment from Iraq***

*(GAO-10-376, ISSUED APRIL 19, 2010)*

In this report, GAO examined (1) the extent to which DoD has planned for the drawdown from Iraq in accordance with set timelines, and (2) factors that may impact the efficient execution of the drawdown. Principally, this report found that DoD has not (1) fully included contracted support in its operational planning for the drawdown, (2) allowed sufficient time in its guidance to ensure that all contracted services can be put on contract in a responsible manner, or (3) clearly defined the roles and responsibilities of various contract validation review boards. Also in this report, GAO made several recommendations to the DoD, such as ensuring that joint doctrine regarding operational planning

for contract support is followed, clarifying the roles and responsibilities of the various contract review boards in the CENTCOM theater, and developing plans for mitigating risks during contractor transitions as the Iraq drawdown continues.

***Military Training: Actions Needed to Further Improve the Consistency of Combat Skills Training Provided to Army and Marine Corps Support Forces***

*(GAO-10-465, ISSUED APRIL 16, 2010)*

Per the House report to the National Defense Authorization Act for fiscal year 2010, GAO assessed the extent to which (1) Army and Marine Corps support forces are completing required combat skills training; (2) the services and CENTCOM have information to validate completion of required training; and (3) the services have used lessons learned to adjust combat skills training for support forces. Principally this report found that additional actions could help clarify CENTCOM's training requirements, ensure the services fully incorporate those requirements into their training requirements, and improve the consistency of training. Also in this report, GAO made several recommendations to DoD to clarify training requirements, standards, and the training tracking system.

***Human Capital: Status of Actions Needed to Improve the Timely and Accurate Delivery of Compensation and Medical Benefits to Deployed Civilians***

*(GAO-10-615T, ISSUED APRIL 14, 2010)*

GAO testified regarding the status of improvements being made to the delivery of compensation and medical benefits to deployed civilians. Principally, GAO found that while policies concerning compensation for deployed civilians are generally comparable among agencies, there are some issues that can lead to differences in the amount of compensation and the accuracy, timeliness, and completeness of this compensation. GAO made ten recommendations for agencies to take actions such as reviewing

compensation laws and policies, establishing medical screening requirements, and creating mechanisms to assist and track deployed civilians.

***Contingency Contracting: Improvements Needed in Management of Contractors Supporting Contract and Grant Administration in Iraq and Afghanistan***

*(GAO-10-357, ISSUED APRIL 12, 2010)*

As mandated in the National Defense Authorization Act for Fiscal Year 2008, GAO reviewed (1) the extent to which DoD, State, and USAID rely on contractors to perform such contractors and whether the decisions are guided by strategic workforce planning; and (3) whether agencies considered and mitigated related risks. Principally, this report found DoD, State, and USAID's use of contractors to help administer contracts and grants was substantial, although the agencies did not know the full extent of their use of such contractors and that the agencies had obligated nearly \$1 billion through March 2009 on 223 contracts and task orders active during fiscal year 2008 or the first half of fiscal year 2009 that included the performance of administration functions for contracts and grants in Iraq and Afghanistan. Also in this report, GAO made several recommendations to State and USAID to improve contractor management, such as developing guidance and clarifying policies related to the use of contractors.

**Ongoing Audits**

***Not reported***

*(PROJECT NO. 320752, INITIATED JUNE 2010)*

Since 2003, Congress has appropriated more than \$23 billion to support the training and equipping of Iraq's military and police, most of which has been provided through the Iraq Security Forces Fund. As part of its FY 2010 supplemental budget proposal and FY 2011 budget request, the Administration is seeking an additional \$3 billion to provide equipment, training, and other services to the Iraq's security forces. In light of a forthcoming GAO report which

assesses Iraq's financial resources and examines the extent to which Iraq has spent these resources on security costs, this engagement plans to review the Administration's justification for requesting additional funding for the Iraq Security Forces Fund and identify possible reductions or modifications.

### ***DoD Iraq Drawdown Planning***

*(PROJECT NO. 351476, INITIATED APRIL 2010)*

This review focuses on four key questions:

- To what extent have DoD's retrograde processes and IT systems ensured the accountability, visibility, and timely disposition of equipment?

- To what extent has DoD met its goal of increasing the proportion of local national contractors performing work in Iraq and ensured adequate oversight?
- What other factors may impact DoD's ability to effectively and efficiently complete the withdrawal of forces and equipment, and what contingency plans does the department have in place?

### ***U.S. Military Withdrawal from Iraq***

*(PROJECT NO. 351475, INITIATED APRIL 2010)*

This review focuses on two key questions:

- To what extent is DoD able to efficiently draw-down materiel from Iraq and close bases in Iraq in accordance with established goals and timelines?
- To what extent plans to factors (i.e., the build-up in Afghanistan, resetting the U.S. force, Iraqi domestic politics, etc.) impact the efficient draw-down of U.S. forces in accordance with established timelines and goals, and the department's ability to effectively transition to the final phase of the drawdown which is scheduled to begin on September 1, 2010?

### ***U.S. Strategy and Joint Campaign Plan for Iraq***

*(PROJECT NO. 320734, INITIATED NOVEMBER 2009)*

GAO's key questions are:

- To what extent does the 2010 Joint Campaign Plan for Iraq include key planning elements called for by military doctrine for campaign planning as defined by Joint Publication?
- What are the current conditions and projected needs for the security situation in Iraq and the capability of the Iraqi Security Forces?
- To what extent have the Departments of Defense and State developed plans to address risks to the campaign?

### ***Annual Mandated Review of Contracting in Iraq and Afghanistan***

*(PROJECT NO. 120874, INITIATED NOVEMBER 2009)*

This review plans to focus on four key questions:

- What is the number and value of contracts, grants, or cooperative agreements issued by, or for, DoD, State, and USAID with performance in Iraq or Afghanistan during FY 2009 and the first half of FY 2010, and to what extent were they competitively awarded?
- How many contractor/grantee/agreement personnel, including those performing security functions, worked on these contracts/grants/agreements?
- How many contract/grant/agreement personnel were killed or injured?
- What is the status of the agencies' efforts to implement the July 2008 MOU on contracting in Iraq and Afghanistan?

*(PROJECT NO. 351388, INITIATED OCTOBER 2009)*

This review plans to focus on the extent to which DoD has identified requirements for supporting ongoing operations, developed an approach to manage deployment of forces to meet requirements, and DoD's ability to meet other commitments.

# DETAILED SUMMARY OF OTHER AGENCY OVERSIGHT

## ***Iraq Cost Sharing Arrangements***

*(PROJECT NO. 320638, INITIATED OCTOBER 2009)*

This review focuses on three main questions:

- What mechanisms is the United States using to share or transfer security costs to the Iraqi government and what results have these mechanisms produced?
- How do other foreign governments support the presence of U.S. forces in their countries and to what extent could features of these arrangements be applied to Iraq?
- What financial resources does Iraq have to pay for its reconstruction and security, to what extent has it expended these resources, and what is Iraq's budget surplus/deficit?

## ***Readiness of Air Force Combat and Expeditionary Combat Forces***

*(PROJECT NO. 351376, INITIATED SEPTEMBER 2009)*

GAO's key questions are:

- How do the services determine the appropriate level of training to provide to their non-combat compared to combat forces?
- What, if any, unique factors have the services considered when determining the appropriate level of training to provide to non-combat arms forces deploying to Iraq and Afghanistan?
- To what extent is the current training of support forces consistent with identified service-specific and theater-specific training requirements for an asymmetric combat environment?
- To what, if any, extent have the services collected information about the effectiveness of pre- and post-deployment training from non-combat arms forces that have deployed to Iraq or Afghanistan?
- To what extent have the services adjusted the training of their non-combat arms forces based on lessons learned from ongoing combat operations in Iraq and Afghanistan?

## ***U.S. Military Burns of Solid Waste in Open Pits at Some Locations in Iraq and Afghanistan***

*(PROJECT NO. 361123, INITIATED AUGUST 2009)*

- What are the alternatives to open pit burning? To what extent has the U.S. government pursued these alternatives?

## ***DoD Medical Wartime Personnel Requirements***

*(PROJECT NO. 351393, INITIATED AUGUST 2009)*

DoD's military health care professionals are needed to support combat contingency operations to treat injured military personnel and save lives. For current contingency combat operations, the key questions are:

- To what extent have DoD and the services identified their wartime health care personnel requirements?
- What challenges, if any, are DoD and the services encountering in meeting their wartime health care personnel requirements?
- To what extent do DoD and the services have or use the tools they need to meet their wartime health care personnel requirements?

## ***Army and Marine Corps Training Capacity***

*(PROJECT NO. 351387, INITIATED JULY 2009)*

***Civilian Agency Plans for Programs, Security, and Logistics during/after the U.S. Drawdown from Iraq***

(PROJECT NO. 320691, INITIATED JULY 2009)

This review focuses on three key questions:

- How have U.S. civilian agencies planned for the U.S. military drawdown, including prioritizing post-drawdown missions and programs, right-sizing civilian staff for these missions; and planning for their future security and logistical needs?
- How effectively have civilian agencies planned for continuing programs previously funded by DoD?
- What are the estimated additional costs to maintain a civilian presence in Iraq as U.S. forces drawdown?

***U.S., Iraqi, and International Efforts to Address Challenges in Reintegrating Displaced Iraqis***

(PROJECT NO. 320654, INITIATED MARCH 2009)

The UN reports that over 4.8 million Iraqis have been displaced, including about 2.8 million within Iraq. In April 2009, GAO issued a report on assistance to Iraqi refugees in Jordan and Syria. In anticipation of a growing number of returns from within and outside Iraq, the international community has encouraged Iraq to develop plans to reintegrate displaced Iraqis. This engagement plans to focus on challenges in reintegrating Iraqis returning from other countries and those displaced within Iraq. This report plans to address the following:

- What challenges do the United States, Iraq, and the international community face in reintegrating displaced Iraqis?
- What actions have they taken to address these challenges?
- What gaps remain, and what more needs to be done to address these challenges?

***Joint IED Defeat Organization (JIEDDO) Strategic Management***

(PROJECT NO. 351230, INITIATED JUNE 2008)

DoD Joint IED Defeat Organization's (JIEDDO) mission is to improve the U.S. military's capability for defending against improvised explosive device (IED) attacks. GAO reviews have continued to raise concerns regarding JIEDDO's ability to strategically manage and to achieve its objectives. The key questions are:

- To what extent has JIEDDO made progress in developing a strategic plan?
- To what extent has JIEDDO developed a process to identify, evaluate, select, and develop counter-IED initiatives?
- To what extent has the Office of the Secretary of Defense provided direction and oversight for JIEDDO operations and activities?

***U.S. Army Audit Agency***

As of June 30, 2010, USAAA had 19 auditors deployed to Southwest Asia: 9 in Iraq, 5 in Afghanistan, and 5 in Kuwait.

***Completed Audits***

***Retrograde Operations in Southwest Asia, Donation and Transfer of Excess Materiel and Supplies***

(A-2010-0098-ALL, ISSUED MAY 7, 2010)

The Army's Deputy Chief of Staff, G-4 requested this multi-phased audit. USAAA reported the Army didn't effectively utilize donation and transfer programs in Iraq to reduce excess Army Working Capital Funded (AWCF) supplies and materiel as part of the retrograde process. Between September and November 2007 auditors identified an average of \$22 million of serviceable AWCF items on hand at the Forward Redistribution Point. During this same time period, an average of \$105 million of serviceable materiel was projected to be received from retrograde. Though the Army had donation and

transfer programs in place, they were limited at the time of the audit because (1) HQDA policy only permitted the donation and transfer of such items as part of forward operating base closures, (2) AWCF business rules prevented donation and transfer of items that were on Army stock records, and (3) the Defense Utilization and Marketing Office in Iraq accepted only unserviceable items. Instead of fully utilizing donation and transfer programs, the Army transported serviceable items out of Iraq to Kuwait using limited transportation assets. Command took actions in response to recommendations made by the auditors that should assist in resolving the backlog in the retrograde pipeline.

### ***Controls Over Vendor Payments—Southwest Asia (Phase II)—U.S. Army Contingency Operations (A-2010-0096-ALL, ISSUED MAY 7, 2010)***

This report is protectively marked For Official Use Only (FOUO). In June 2008, the Defense Finance and Accounting Service (DFAS) identified and reported the spillage of classified contingency vendor payment information in two unclassified payment repositories. DoD and Army commands took several actions between June 2008 and April 2009 to prevent additional spillage of classified information through unclassified vendor pay operations. These actions significantly decreased spillage incidents associated with contingency payments by about 71 percent. However, in spite of actions taken, auditors found finance and contracting activities continued to process classified information through unclassified vendor pay processes. This occurred because finance and contracting activities included classified information in payment and invoice packages submitted to DFAS Rome for storage and payment. As a result, the Army was at an increased risk for unauthorized access to classified information that could compromise Soldier safety and foreign relations.

### ***Commander's Emergency Response Program (CERP), Multi-National Force—Iraq, Summary Report***

*(A-2010-0097-ALL, ISSUED MAY 4, 2010)*

This report is protectively marked For Official Use Only (FOUO). The Commander, Multi-National Force-Iraq requested this audit. USAAA reported, based on reviews of 310 projects valued at valued at \$68.2 million, that internal controls were in place to ensure commanders in Iraq implemented the program properly, to include CERP guidance contained in the Multi-National Corps-Iraq *CJ8 Money As A Weapon System* set of standard operating procedures. However, issues existed with the application of CERP guidance to include some instances of incomplete project files, approved projects that may have fallen outside CERP criteria, and insufficient statements of work. These issues occurred primarily because of shortfalls in the training and experience level of personnel performing the fund's management, oversight, and execution actions. The Office of the Deputy Chief of Staff, G-3/5/7 and the Commander, Multi-National Force-Iraq stated action had been or would be taken to address the recommendations in the report.

### ***Foreign Military Sales Process for Iraq and Afghanistan***

*(A-2010-0094-ALA, ISSUED MAY 3, 2010)*

USAAA reported that the Foreign Military Sales (FMS) process was generally adequate to acquire equipment and services for Afghanistan security forces. However, equipment for Iraqi forces was primarily acquired outside the FMS process. The peacetime FMS process was perceived as too slow and cumbersome for contingency operations. The Iraq Transition Command asked for and received "direct procurement authority" and used the authority to bypass the FMS process. The Army has taken steps to improve the peacetime process and estimates that about 95 percent of the equipment delivered to Iraq and Afghanistan was Army-managed equipment. Also, Army Security Assistance material and services programs didn't

have visibility over equipment procured and transferred to Iraq forces outside the FMS system. The Army has an opportunity to further influence the process by working with the DoD Task Force and a Presidential Blue Ribbon interagency task force established to study and recommend improvements to Security Assistance processes.

***Agreed-Upon Procedures Attestation to Evaluate Bulk Fuel Requests for Forward Operating Base Shank, Afghanistan***

*(A-2010-0088-ALL, ISSUED APRIL 14, 2010)*

This report is protectively marked For Official Use Only (FOUO) Law Enforcement Sensitive. The International Contract Corruption Task Force, Bagram Airfield, Afghanistan requested this attestation review. Auditors reconciled initial bulk fuel requests with delivery records kept at the Forward Operating Base (FOB) Shank bulk fuel farm for the period December 1, 2009 through February 18, 2010. These reconciliations were made to determine the number of potential fraudulent bulk fuel requests and the respective amount of fuel losses.

***Multi-National Security Transition Command Iraq (MNSTC-I), Iraqi Security Forces Fund (ISFF)***

*(A-2010-0082-ALL, ISSUED APRIL 12, 2010)*

This report is protectively marked For Official Use Only (FOUO). The Commander, Multi-National Security Transition Command-Iraq (MNSTC-I) requested this audit. Overall, auditors found command's process for planning, budgeting, and reviewing the ISFF to be working efficiently based on established procedures, funding guidance, and automated tools used by command. However, auditors identified the need for improvements in internal controls related to program validation and reporting that included (1) attaching documentation of commander approval for funded projects, (2) maintaining proper separation of duties for approving project purchases and (3) properly tracking all uses of the ISFF. Auditors also identified that the reporting method used by MNSTC-I did not meet the intent of congressional reporting requirements

dealing with the uses of the ISFF on a project-by-project basis.

***Followup Audit on Sensitive Items Accountability and Control at Abu Ghraib***

*(A-2010-0087-ALL, ISSUED APRIL 12, 2010)*

The Army's Deputy Chief of Staff, G4 requested this follow-up audit. The initial audit showed that command needed to improve how it monitored and documented contractor performance in accordance with the established Quality Assurance Surveillance Plans (QASP) for contracts associated with the Abu Ghraib Warehouse (AGW) mission. During the follow-up audit auditors found that, instead of closing as planned, the AGW site transitioned from the Commercial Logistics Distribution Agency (CLDA) to the Multi-National Security Transition Command-Iraq (MNSTC-I) on July 1, 2009. Auditors found evidence that MNF-I implemented and documented the QASP for only one month between the end of the original audit in February 2009 and the time the warehouse was handed over to MNSTC-I in July 2009. However, in July 2009, MNSTC-I positioned a contracting officer's representative onsite at AGW to monitor contractor performance. Upon review of the contracting files, it appeared that MNF-I was implementing the QASP and had done so since the command assumed responsibility for the AGW site. In addition, auditors found that command allocated sensitive items stored at the warehouse to end users before the disbandment of CLDA. Because of MNF-I's actions, recommendations from the initial audit were closed. This report contains no additional recommendations.
